Forecast for Sunday 27 Jun 2021

Weather: A bright day with some sunny intervals, perhaps more in the way of cloud around northern and far wester ranges like Ben Hope, Skye and Assynt and perhaps some light patchy rain or drizzle here at times as the day goes on.

Chance of cloud free mountain/hill tops above 800m: 80%, scattered or broken low cloud developing around far northwestern and western ranges at times from late morning.

Visibility: Generally good visibility but scattered or broken low cloud around 600m and above in the far northwest and west at times, cloud perhaps lower at times during the afternoon with quite poor navigation conditions at times on the Cuillins, Torridon and other coastal areas.

Met Office Aberdeen Meteorologist's View

Light winds and feeling quite warm in any sunshine.

Forecast for Monday 28 Jun 2021

Weather: Low cloud will persist around coastal areas in the west and northwest at first but will generally lift during Monday to leave a dry and bright day with long sunny spells, patchy cloud at times too.

Maximum wind: Variable direction 5-10mph.

Chance of cloud free mountain/hill tops above 800m: 80% improving to 95% perhaps scattered lower cloud around for coastal ranges like Torridon, Assynt and the Cuillins at first but cloud generally lifting during the morning to be above most summits by afternoon.

Visibility: Moderate or poor visibility for ranges affected by low cloud, ranges further from the west coast will have very good visibility throughout.

Temperature: **Glens:** Plus 9 rising to 19 Celsius.
At 800m: Plus 7 rising to 13 Celsius.
Freezing level: Above the summits.
